Dear ChinaPlus,

We at EXTRA TOUCH TOURS want to sincerely thank you for a trip of a life time to CHINA. As tour leaders we are so pleased to hear many of our well traveled cliental say it was the best tour they have every taken. Everything exceeded our expectations.

In the planning stages we found your company great to work with. You were very prompt in answering our questions and getting back to us, which means so much to tour leaders.

The Tour was well arranged, very organized and it included so many fun and exciting extras. The guides were professional, fluent in English, enthusiastic about show us their country and they had great fun personalities. They were happy to answer our many questions and they were there to help our clients in any way. The accommodations were fantastic and the food was great. Our people really enjoyed the wonderful breakfast spread and the noon and evening meals provided much variety. We had a few cliental that were not particularly found of Chinese Food but with the wide selection that was provided for us they were able to find more than plenty to satisfy their needs. Many of our group thought they might loose weight on this tour but with the wide selection provided for us, they actually gained weight.

This tour was designed with great attention to the interest and needs of American Travelers.

We can hardly wait to plan another tour with ChinaPlus. Our traveling friends on this past tour are doing a great job of advertising for us.

Thanks again!
