

Dear Chris and Ping,

WOW, WOW, and WOW! What an amazing experience you gave to the travelers in our Select 50 Club. Even with a delay of a day, because of snow, we saw everything.

Your planning and your speedy responses to ALL of our questions while planning the trip was truly amazing. We never felt frustration.

Chris, having you throughout the trip gave all of us a sense of confidence in China. You handled everything so well and always had your wonderful smile. I really don't know how anyone can do China without you!! Your choice of our local guides also amazed us. Robert in XI'an was the most amazing; to think we had a guide for the Terracotta Soldiers who was actually a part of the dig is remarkable.

We were all so worried about eating and being hungry-not with you! The meals were terrific and we tried so many new delicious dishes. If anyone went hungry it was there own fault.

Angela and I are still talking about you and our wonderful adventure! You covered everything! Now we are looking forward to eventually doing the Silk Road with you.

Thank you, too, for treating Angela and I like queens!

Yours truly,

*Ann and Angela*
