

Dear Chris & Ping,

Thank you for our 2012 Memory Makers trip to China. This was one of our most favorite trips. It was quite the adventure with so much rich history and culture to learn about. The Terra Cotta Warriors visit was one of our favorite days.

Our guides in each of the cities spoke great English and they shared so much of their lives with us that when we had to tell each of them good bye we felt like we were saying farewell to one of our family. The guides were so knowledgeable and so proud of their country. We had a small group so we had great opportunities to ask a lot of questions and really experience the county of China. Each day was a new adventure.

Although our visit was during the student demonstrations regarding the island that China and Japan are disputing over we felt very safe knowing that Chris was constantly monitoring the situation and making sure that we were safe throughout the trip. Our 5 star hotels during the trip were some of the most luxurious that we had ever been in, especially the Swisstouches Hotel in Xi'an. All our meals were great and it was interesting to experience the unique cuisine of each of the areas we visited.

China Plus does a great job in handling all of the details and making sure everything is handled efficiently and smoothly. I look forward to visiting and exploring more of China someday with our Memory Makers group.

Thank you for an amazing adventure in China,
